

Sheetal Electrotech

Company Profile

OEM Manufacturer of Plastic Products, LED Lighting & Electronics

About Sheetal Electrotech

Established OEM manufacturer and supplier of plastic products, LED lighting, and electronics with over 25+ Years of experience in the industry.

Manufacturing Area: 30,000+ Sq. Ft.

Capabilities: 9 In-House Capabilities

Manufacturing Facilities & Capabilities

Injection Moulding

Precision injection moulding machines up to 250 tons, capable of processing various engineering plastics for durable product housings.

IBM Plastic

Injection Blow Moulding facility producing high-quality PC/PET/PP containers and diffuser domes.

Blow Moulding

Advanced blow moulding machines for manufacturing rigid packaging containers.

Extrusion

Profile extrusion lines for LED battens and custom industrial plastic profiles.

SMT

Automated Surface Mount Technology lines for high-precision LED MCPCB and driver board population.

Manual Insertion

Dedicated lines for through-hole components and specialized electronics assembly.

Assembly & Packing

Streamlined final assembly lines with integrated end-of-line testing and custom packaging capabilities.

Tool Room

In-house tool room supporting maintenance and modifications for faster product development.

R&D

In-house photometric and electrical testing laboratory ensuring product compliance and reliability.

Product Categories

1. LED Lighting
2. Electronics (Extension Boards)
3. Rigid Packaging

We offer full OEM and private-label manufacturing capabilities across all product lines.

Quality & Certifications

- ISO 9001:2015
- BIS Certified

Leadership Team

Surendra Singh

Founder & Chairman

Establishing the vision and foundational expertise in manufacturing.

Ajay Singh

CEO of Sheetal Group

Leading overall corporate operations and strategic business growth.

Suresh Prasad Arya

Head of Research and Development

Leading product innovation and engineering development.
